I request that Stark County Building Standards Department perform a visual, non-serious hazard inspection on the above listed property, in order to restore the permanent electrical service. I understand this request will require an interior/exterior inspection of the electrical service panel and associated components. This visual inspection is limited in nature, and only intended to verify the existing installation is intact and safe to energize. Furthermore, if any repairs are needed I agree to contact a properly registered Electrical Contractor to perform the necessary corrections.
